In addition to drug changes, the Alabama Medicaid Agency will be updating its criteria for the following classes: Antidepressants, Alzheimer's Agents, Antihyperlipidemics, Cerebral Stimulants /ADD/ADHD Agents, Anxiolytics/Sedatives/Hypnotics, Cardiac Agents, Narcotic Analgesics, Platelet Aggregation Inhibitors, and Skeletal Muscle Relaxants.

- Diagnosis will be required on all prior authorization (PA) requests submitted.
- Prior therapies must include prescribed and PDL preferred agents.

For any drug classes where stable therapy applies, supporting documentation is required of the source of the medication meeting stable therapy requirements. Examples of acceptable documentation include pharmacy profile printouts, prescription copies, copies of the medical record medication list or progress notes documenting strength and quantity consistent with consecutive therapy timeframes. Stable therapy does not include medication samples or manufacturer vouchers.

The PA request form and criteria booklet, as well as a link for a new PA request form that can be completed and submitted electronically online, can be found on the Agency website at www.medicaid.state.al.us and should be utilized by the prescribing physician or the dispensing pharmacy when requesting a PA. Hard copy PA requests may be faxed or mailed to:
